Summary

User-oriented full stack developer with strong analytic skills and attention to detail. Driven team player always looking to learn new tech. Prior experience negotiating acceptance criteria, running acceptance tests, and participating in usability tests.

Projects

theMovieBook | MERN & MEAN Stack SPA

Movie database single-page application. Database and RESTful API built from scratch with the client being built twice using both React and Angular.

MeetApp | React Serverless PWA

Simple calendar app for developer events built with a test-driven development approach, including unit, integration, and E2E tests. AWS Lambda used for OAuth authentication and Google Calendar integration. Makes use of local caching and service workers for offline and mobile use.

Chatify | React Native Application

React Native chat app that uses Firebase and Firestore for authentication and data storage. Makes use of async storage for local data storage and offline functionality. Built to a design specification.

Experience

Collateral Administration Processor | Genpact, LLC

Feb 2018 - Feb 2020 | Portland, OR

- Doubled departmental productivity by assisting in the development, testing, and implementation of automation tools.
- Applied analytical skills to streamline manual processes allowing for continued on-time delivery in the face of a 250% year over year increase in processing volume.

Wireless Team Leader | MarketSource, Inc.

Feb 2018 - Feb 2020 | Portland, OR

- Identified customer concerns and desires and matched them with the technology required to meet those needs.
- Led a team of 4-6 employees with routine coaching and feedback to promote overall sales performance and customer satisfaction

Freelance Usability Tester

Aug 2014 - March 2019 | Remote

- Aided clients, from Fortune 500 companies to startups, in identifying points of friction in the user experience of their web interfaces.
- Utilized strong descriptive and communication skills to provide focused, in-depth commentary and suggestions for improvement.

Education

CareerFoundry | Full Stack Development Bootcamp

Feb 2021 - Aug 2021

Reed College | Math / Economics
